輝立商品(香港)有限公司

期貨客戶協議補充:

條款	修訂內容	生效日期
附表 3 -18	備用買賣指示的風險 備用買賣指示，包括 開市市價指示、 收市市價指示、取消前有效指示、止損指示及止損限價指示，未必能有效限制損失或保障利潤。價格急劇變動、價格跳空、市場波動、公司行動、流動性不足、暫停交易、系統故障或通訊延誤等因素，均可能令該等指示難以或無法執行。 止蝕指示被觸發後，可能作為市價指示執行，成交價亦可能與止蝕價有重大差異。若市價已超出指定限價， 止損限價指示可能無法執行。 備用買賣指示的成交價格可能與預期價格有重大差異，亦可能僅獲部分執行，或完全無法執行。 客戶仍須負責監察其持倉，並履行所有適用的交收、保證金及抵押品責任。本公司不保證任何備用買賣指示會獲接納或執行，亦不保證其執行時間、成交數量或成交價格。在客戶協議、適用法律及法規以及相關市場規則允許的範圍內，本公司可拒絕、暫停、取消或不處理任何該等指示。	13/10/2026
附表 3 -19	簡化電子直接付款授權（eDDA）的風險 簡化電子直接付款授權（「eDDA」）是香港銀行同業結算有限公司營運的「轉數快」系統下的一項服務，讓客戶可從以客戶本人名義持有的指定銀行賬戶，將款項存入客戶於本公司開立的賬戶。在取得客戶的預先授權及相關資料後，本公司可透過其銀行提交 eDDA 設立申請，由客戶的銀行核實及接納。視乎客戶銀行的程序，客戶可能無須另行向該銀行確認設立申請。聯名賬戶或以第三方名義持有的賬戶均不可使用，而客戶提供的身份識別資料，包括於銀行登記的身份證明文件類別及相應號碼，必須與本公司的紀錄一致。客戶亦須確保指定銀行賬戶及就該賬戶設立的任何 eDDA 持續有效。 設立 eDDA 或隨後的存款，存在著因錯誤或未經銀行帳戶持有人授權而進行的風險。例如，透過冒充、未經授權登入客戶的交易帳戶，或是濫用個人或銀行帳戶資料。 eDDA 設立申請或存款亦可能延誤、被拒絕或因其他原因未能成功。轉賬的處理時間及能否完成取決於相關銀行及「轉數快」系統。本公司並不能控制相關銀行的系統，亦不保證該等系統的可用性、功能或可靠性。在本公司確認款項可供使用前，客戶不應假設該等款項已可用於交易或交收。客戶一旦確認並提交存款指示，該指示及由此產生的轉賬即不可撤銷，並對客戶具有約束力。 本公司將向客戶披露適用於有關安排的 eDDA 設定，包括任何扣款金額或次數限制，以及任何到期日。如客戶不接受該等設定，則不應繼續辦理 eDDA 設立程序。客戶應在同意設立 eDDA 前，核對指定銀行賬戶資料及已披露的 eDDA 設定。客戶亦應定期向相關銀行檢視該等設定，並在有需要時作出修改。此外，客戶應定期檢視已於本公司登記作 eDDA 存款用途的銀行賬戶，包括該等賬戶的數目及任何變更，並監察銀行交易是否涉及異常或未經授權的活動。如需更改扣款金額或次數限制或到期日，客戶應直接聯絡相關銀行辦理，並及時通知本公司任何有關變更。客戶可聯絡相關銀行取消 eDDA 授權。本公司可隨時取消或暫停有關授權或 eDDA 服務。	13/10/2026

	如客戶懷疑出現錯誤或未經授權的活動，應立即通知本公司或相關銀行，並在適當情況下向香港警務處報案。 本公司可在適當情況下，按照《客戶協議》及適用規定，拒絕或延遲處理 eDDA 設立申請或存款指示、要求進一步核實，或施加限制或暫扣期。如存款延誤或未能成功，客戶仍有責任履行任何適用的付款、交收及保證金義務。本風險披露的任何內容均不排除或限制本公司根據適用法律或監管規定須承擔的責任。

Supplement to the Futures Client Agreement:

Clause	Amended Content	Implementation Date
Sch 3 – 18	Risk of Contingent Orders Contingent orders, including market-on-open, market-on-close, good-till-cancel, stop-loss and stop-limit orders, may not be effective in limiting losses or protecting profits. Market conditions, including rapid price movements, price gaps, volatility, corporate action, insufficient liquidity, trading suspensions, system failures and communication delays, may make it difficult or impossible to execute such orders. A stop-loss order may, once triggered, be executed as a market order at a price substantially different from the stop price. A stop-limit order may not be executed if the market price moves beyond the specified limit price. A contingent order may be executed at a price substantially different from the expected price, may be executed in part only, or may not be executed at all. The Customer remains responsible for monitoring positions and meeting all applicable settlement, margin and collateral obligations. The Company does not guarantee the acceptance, execution, timing, completeness or execution price of any contingent order and may refuse, suspend, cancel, reject or decline to act on such order as permitted under the Client Agreement, Applicable Laws and Regulations and the relevant market rules	13/10/2026
Sch 3 – 19	Risk of Simplified Electronic Direct Debit Authorisation (eDDA) Simplified Electronic Direct Debit Authorisation (“eDDA”) is a service under the Faster Payment System operated by Hong Kong Interbank Clearing Limited and enables the Customer to arrange deposits into the Customer’s account with the Company from a designated bank account held in the Customer’s own name. With the Customer’s pre-authorisation and information, the Company may initiate an eDDA setup request through its bank for verification and acceptance by the Customer’s bank. Depending on the Customer’s bank’s procedures, the Customer may not be asked to confirm the setup request separately with that bank. An account held jointly, or in the name of a third party, cannot be used, and the identification information the Customer provides — including the type of identification document registered with the bank and the corresponding number — must match the Company's records. The Customer must also ensure that the designated bank account, and any eDDA set up on it, remains valid. There is a risk that an eDDA setup request or subsequent deposit may be made in error or without the bank-account holder’s authority—for example, through impersonation, unauthorised access to the Customer’s trading account, or misuse of personal or bank-account information. An eDDA setup request or deposit may also be delayed, rejected or otherwise unsuccessful. The timing and completion of a transfer depend on the relevant bank and on the Faster Payment System; the Company does not control, and does not warrant the availability, functionality or reliability of, the systems of the relevant bank. The Customer should not assume that funds are available for trading or settlement until the Company confirms their availability. Once the	13/10/2026

	Customer confirms and submits a deposit instruction, the instruction and the resulting transfer are irrevocable and binding on the Customer. The Company will disclose to the Customer the eDDA settings applicable to the arrangement, including any limits on the amount or frequency of debits and any expiry date. If the Customer does not accept those settings, the Customer should not proceed with the eDDA setup. The Customer should check the designated bank account details and the disclosed eDDA settings before consenting to the setup. The Customer should also regularly review those settings with the relevant bank and amend them where necessary. The Customer should also regularly review the bank accounts registered with the Company for eDDA deposits, including the number of such accounts and any changes made to them, and monitor bank transactions for unusual or unauthorised activity. The Customer should contact the relevant bank directly to arrange any changes to the limits on amount or frequency of debits or to the expiry date, any promptly inform the Company of any such changes. If Customer may cancel the eDDA authorization by contacting the relevant bank. The Company can cancel or suspend the authorization or the eDDA service at any time. If the Customer suspects an error or unauthorised activity, the Customer should immediately inform the Company or the relevant bank and, where appropriate, report the matter to the Hong Kong Police Force. The Company may, where appropriate, decline or delay an eDDA setup request or deposit instruction, require further verification, or apply limits or a holding period in accordance with the Client Agreement and applicable requirements. If a deposit is delayed or unsuccessful, the Customer remains responsible for meeting any applicable payment, settlement and margin obligations. Nothing in this disclosure excludes or limits the Company's responsibilities under applicable law or regulatory requirements.
